

areas subject to the jurisdiction of the United States, to join in observing this occasion and to urge all Americans to practice safe boating not only during this week, but also throughout the year.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of May, in the year of our Lord nineteen hundred and ninety-eight, and of the Independence of the United States of America the two hundred and twenty-second.

WILLIAM J. CLINTON

Proclamation 7097 of May 15, 1998

World Trade Week, 1998

By the President of the United States of America

A Proclamation

The American economy is experiencing its longest period of sustained growth in more than a generation, with more than 15 million new jobs, the lowest unemployment rate since 1970, and the lowest inflation rate in more than 30 years. Much of this economic expansion can be attributed to our overseas trade. Today, America is the world's leading exporter. Our exports sustain 12 million jobs—jobs that on average, pay more than jobs not tied to exports. The extraordinary vigor of America's economy reflects the 1998 theme of World Trade Week: "Exporting Pays Off."

Our unparalleled capacity to develop and market high-technology products and processes has given us a strong competitive edge in the international marketplace in everything from aerospace to agriculture. Americans have led the world into the Information Age, and we are poised to lead it into an exciting new era of electronic commerce. Also central to our success in the global economy has been our ability to open foreign markets for American goods and services. During the past 5 years, my Administration has negotiated more than 240 new trade agreements and strengthened efforts to eliminate unfair trading practices in order to help American workers and businesses compete in an international arena that is open and fair and where trade rules are enforced.

To keep America growing, and to maintain our leadership in the global economy, we must expand our exports. We must sustain our advantage in information and other technologies by creating a business climate that encourages investment, by continuing our support of education and research in basic science and technology, and by ensuring that American workers are the best-educated and best-trained work force in the world. The Bureau of Labor Statistics estimates that we will need more than a million new high-skilled workers during the next 10 years to power the information technology field. We must provide working Americans with the skills and training they need to seize these promising employment opportunities.

Our exports and our economic strength depend upon our access to an open, stable, and growing world market. The nations of the world are becoming increasingly intertwined in a global economy. We must continue our efforts to remove foreign barriers to American goods and

services, to open new markets, and to keep them open. This week, I will travel to Geneva, Switzerland and address the World Trade Organization to underline just how important free and open trade is to our future prosperity. Fast-track trade authority has been a crucial tool in this endeavor in the past, and it will become increasingly important to our ability to compete in the future with other countries for new markets, new contracts, and new jobs. This traditional trading authority will empower us to negotiate pro-growth, pro-American trade agreements that will maintain the momentum of our economy and ensure that American workers and American businesses can compete on a level playing field with the rest of the world.

America's leadership in building an open, fair world trade system is paying off in rewards for entrepreneurial initiative, higher wages for working Americans, incentives for technological advances and artistic creation, and prosperity for our Nation. By embracing the challenges of competing in the global marketplace in the 21st century, we can ensure continued growth for American businesses, prosperity for working Americans, and a brighter future for us all.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim May 17 through May 23, 1998, as World Trade Week. I invite the people of the United States to observe this week with ceremonies, activities, and programs that celebrate the potential of international trade.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of May, in the year of our Lord nineteen hundred and ninety-eight, and of the Independence of the United States of America the two hundred and twenty-second.

WILLIAM J. CLINTON

Proclamation 7098 of May 21, 1998

National Maritime Day, 1998

*By the President of the United States of America
A Proclamation*

The United States is and has always been a maritime Nation. Our history is tied to the sea—from the *Santa Maria* to the *Mayflower*, from clipper ships to ocean liners, from the Liberty Ships of World War II to the huge, efficient containerships of the 1990s—and our development as a Nation has paralleled the growth of our waterborne commerce.

As we look forward to the challenges of the 21st century, we continue to rely on our Nation's maritime industry and the U.S. Merchant Marine to keep America competitive in an increasingly global economy. Ships and barges carry more than one billion tons of commercial cargo annually between ports within our Nation. Internationally, more than 95 percent of our imports and exports by weight are transported on water—a total of more than one billion metric tons of cargo each year.
